Self Introduction

Good morning everyone.

My name is **Gembali Shanmukhasai**. I am currently pursuing my **B.Tech in Computer Science and Engineering at Gayatri Vidya Parishad College of Engineering**, with a CGPA of **9.47**.

I am mainly interested in **Artificial Intelligence, Machine Learning, Agentic AI, Full-Stack Development, and Cloud Computing**. I have a strong foundation in **Python, Java, C, C++, Data Structures and Algorithms, and software development**. I also have experience with technologies such as **React, Next.js, FastAPI, REST APIs, databases, Git, GitHub, and AWS**.

Coming to my projects, I have worked on a **Medical Digital Twin and Multi-Agent Debate System** through the **Google × Kaggle AI Agents program**, where I explored AI agents, RAG, machine learning, and explainable AI. I have also developed a **Quantum Smart Timetable Optimizer**, an **AI Personal Operations Agent using Java Full Stack**, and a **Personal Timetable Telegram Bot**. I also participated in the **Smart India Hackathon**, working on a packaged commodity compliance system.

My strengths are **quick learning, problem-solving, teamwork, and consistency**. I enjoy exploring new technologies and applying what I learn to build practical solutions.

My short-term goal is to **strengthen my technical skills and gain practical industry experience through internships and real-world projects**. My long-term goal is to build a successful career in **AI and software engineering**.

Thank you for giving me the opportunity to introduce myself.
